After the initial shock of the Sept. 6, '95 gasoline fire in our shop, we had visions of the turmoil we had with a previous misfortune.

It involved a hit & run accident Oct. 28, '93 that left our parked Service Car totaled against the side of our building. After numerous phone calls & paperwork we had to file a complaint with the State of N.Y. Ins. Dept. of Consumer Services, who resolved our problem.

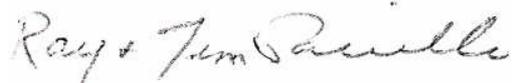

Due to our bad experience, we contacted the public adjusters of Basloe, Levin & Cuccaro to deal with the Insurance Co.

Within 2 months everything was resolved to our benefit without any paperwork on our part.

Thanks to their very efficient staff, we're back in business.

We would definitely recommend them.

Thanks again,
