Dear BLC/AI,

I appreciate your assistance in settling my fire insurance claim on my dairy barn and related losses.

It make a big difference having someone on my side, knowing insurance laws and how to negotiate an appropriate settlement. Having gone through this once before on my own, I now fully realize the value of your services, especially leaving a portion of the claim open after the 'final settlement' until the tractor settlement was readjusted for over 50% more. The 'cost' of your services is very cheap compared to the returns, and I am 100% sure your adjusters helped negotiate a settlement much higher than I could have on my own- many many times higher than your fees.

Your staff is very professional and assistance such as you provide is very valuable especially since we tend to be somewhat vulnerable in times of such a devastating loss, and just want settle and move on. With you standing between the insured and the insuree, no one gets taken advantage of.

I would highly recommend your company to anyone with an insurable loss and would be happy to provide reference to anyone who may be in doubt if they should hire your company.

*Thanks ya,
Karl W. Hallen*
